

January | 2017

Prepay Program

It's that time of year again! Stop in to prepay your chemical now through January 13th to lock in a 12% APR cash discount. As always, this guarantees price protection. We will also be offering many financing options as well.

Prepay fertilizer prices are also available to be locked in at any time. Prices are subject to availability. Get ahold of us to schedule a meeting at the office, or at your farm, to discuss the best weed and plant management products for your acres.

Xtendimax Approved!

We are excited that the Xtendimax herbicide has been approved for Xtend beans. This new advanced dicamba formulation with VaporGrip technology will be a great fit for those acres with glyphosate resistance. It is not too late to get your order in for corn and soybean seed! There is excellent supply to lock in your varieties for 2017.

Hefty Winter Workshops

Don't miss our Hefty Seed agronomy and soils workshops this winter! The agronomy workshop will be January 6th at the Titan Learning Center in Fort Ransom, ND and the soils clinic will be February 1st at the Ramada Inn and Suites in Fargo, ND.

George Resler Retires

After a 45-year career in the grain industry, 39 of which were at the Red River Grain Facility, and 30 as a Red River Grain employee, George has decided to hang up his hat and enjoy retirement. George has been an icon as he has been with Red River Grain since its beginnings. His dedication, loyalty, and hard work has served as a model for what we strive to be as a company. George has witnessed many changes during his time in the grain industry, from the old tent storage building with legs at 3,000 bushels per hour to cooping box cars to receive grain at 40,000 bushels per hour along with loading a shuttle train 440,000 bushels in 10 to 11 hours. Red River Grain would like to THANK George for his dedicated service to the company and to the farmers he served. He will be missed at Red River Grain and we wish him the best of luck in his well-deserved retirement.

Red River Grain

3549 200th Ave

Breckenridge, MN 56520

Free Price Later on Corn and Beans

Red River Grain will be offering free delayed pricing effective Jan 3, 2017 for corn and soybeans. All grain must be delivered on or after Jan 3rd and sold by September 22, 2017.

Producer Marketing Tool

Red River Grain is now offering Producer Accumulators with Euro Double Up. This contract gives the Producer the opportunity to contract grain, with no upfront cost, at a higher price than the current price in exchange for:

The potential of being knocked out at a lower price or the potential to double up bushels at the end of the contract period.

Things to be aware of:

- The maximum potential number of units that could be priced is the notional quantity times two.
- The minimum that could be priced is zero, IF the Knock-Out occurs prior to the first Accumulation date.
- Basis component Flexible.
- Double Up event is now a one day event, entire notional quantity is at the end of the Accumulation Period.
- If you have any questions on this contract or any other marketing options please feel free to call Tom or Kelly at Red River Grain.
